Great thank you Bruce! I will forward the documents to our Congressional Liason and let him decide if he would like to transmit them or have you do it.

Much appreciated.

Michele

Michele,

We have both of these documents, and I am attaching them. But, if the Region would rather have HQ send them directly to the Congressional staffer who requested them, then we can do that. They are both documents created by OGWDW HQ and it would be good to know why these were needed and for what purpose. They are very dated documents.

However, in the interest of time, and since we have provided them to GAO for their Class II study, they are public documents. As long as no additional explanation on how these documents were created, and if you are comfortable with sending them to Katharine Moore then feel free to do so.

If she has any further questions, it would probably be best if she contacted our OCIR Office and mention my name as the UIC OGWDW point of contact. Thanks.

Do you know if these reports are on our website? Or where we may be able to track them down?

Thanks,

Lisa

Hi Folks,

Does anyone have copies of the two reports referenced at the bottom of this email? We have a congressional inquiry and are trying to fulfill this request. Any assistance would be appreciated.

Sincerely,

Michele

I think these are HQ documents. Maybe Michele can contact OGW

Katharine –

Thanks for your inquiry and for copying both David Albright in our Water Division and myself. I was out on Friday and wanted to let you know that I understand from an out-of-office message I received this morning that David is out of the office until Thursday, April 9th. I have reached out to some of his other Water Division colleagues to see if we can locate the materials you have requested. I did some quick Google searches this morning and was also not able to locate them. Perhaps upon David's return to the office, he can let us know whether he is able to track down this EPA reports. Thanks for your patience until David's return.

Regards,

Brent Maier

Good morning,

I keep hitting dead ends trying to track down two US EPA reports on class II UIC wells – one is from 1989 and the other is from 1992. They are referenced in the attached 1993 SPE paper (references #2 and #4). Do you have them in Region IX? If you do, would you mind, please, sending me copies?

Here are the references:

U.S. EPA, "Mid-Course Evaluation of the Class II Underground Injection Control Program: Final Report of the Mid-Course Evaluation Workgroup." (August 1989).

U.S. EPA, "Environmental Protection Agency Class II Injection Well Advisory Committee: Final Report." (March 1992).

I appreciate your help.

Much thanks,

Katharine
